"Where engineering & accounting come together"

OUTSOURCE: Engineering Based Cost Segregation, R&D Credits and the new Energy Efficiency Tax Studies, *to the best in practice.*

Core Solutions Group, LLC is a national tax and cost recovery consulting firm specializing in engineering-based, tax recovery studies for commercial property owners. We offer a unique blend of tax code and legal professionals as well as design and structural engineers that have extensive training and experience in *Cost Segregation, Energy Efficiency Tax Studies, R&D Credits and Property Tax Recovery.*

- We have completed thousands of studies with zero disallowances to date, saving our clients millions of dollars.
- We never compete with your CPA firm. Instead, we will partner with you to ensure maximum tax benefits and add real value to your firm.
- Our findings will withstand IRS scrutiny and come with our exclusive CORE Audit Defense Guarantee. (CADG)
- We perform on-site quantified physical inventories (we don't just rely on blue print, electrical plan take offs).
- Extensively trained staff utilizes the latest software and tools to maximize the findings and deliver the highest quality studies in the industry.

We would like to partner with your firm! Join our National Alliance of CPA's and begin to increase billing revenue while improving your client's cash flow!
